

Dr. Divya Ajmeera

Dr. Divya Ajmeera is an academician and researcher specializing in Pharmaceutics, with expertise in novel drug delivery systems, formulation optimization, and translational research. She currently serves as Guest Faculty for M. Pharmacy (Pharmaceutics) and holds a Ph.D. in Pharmaceutical Sciences from Kakatiya University. She brings a strong background in research mentorship and academic guidance, supported by her previous academic roles in teaching and departmental leadership.

She further advanced her expertise as an ICMR Post-Doctoral Fellow at the ICMR–National Institute of Nutrition, contributing to nanotechnology-driven research, including clinically relevant anticancer applications. Her work focuses on enhancing therapeutic efficacy and improving patient outcomes through innovative drug delivery solutions.
